10.04.2017|AIRBRIDGECARGO NAMES VINCE RYAN AS VICE PRESIDENT, NORTH AND SOUTH AMERICA

AirBridgeCargo Airlines (ABC) has promoted Vince Ryan to the post of Vice President, North and South America.

Based in New York, he will continue the development of ABC's growing business and network in the Americas, which already includes Boeing 747 freighter services connecting Atlanta, Chicago, Dallas, Houston, Los Angeles and Seattle to the airline's global network over its Moscow hub.

Vince started his 34-year career in the cargo industry with Flying Tigers and, later, the Port Authority of New York & New Jersey before joining British Airways World Cargo in 1989 as Manager, Cargo Development, USA. He went on to spend 10 years with Global Freight Exchange, ultimately as Vice President - Global Business Development, before joining Southern Air as Director of Marketing.

In 2013, Vince joined AirBridgeCargo as Cargo Manager, Americas and, prior to this latest appointment, was Cargo Sales Manager Americas & Global Account Development.

Commenting on his new role, he said: “Since ABC launched its first route in the U.S. in 2011, we have consistently grown our network and volumes by listening to our customers and providing the level of capacity they need to and from major North American cargo gateways. We are making a long-term commitment to being a major cargo partner to our customers in both North and South America, and with our growing fleet of Boeing 747 freighters we will be proactively looking for new opportunities in both markets.”
