

20.11.2006 | AirBridge Cargo Launches First Domestic Flight

Moscow, November 20, 2006 -AirBridge Cargo will operate scheduled cargo flights from Moscow to Krasnoyarsk since November 25 to December 31, 2006; this will be the first domestic flight in the company's history.

New service offering is stipulated by strong demand for domestic cargo flights and seasonal growth of demand for efficient cargo delivery, which is traditional in New Year period.

VD9034 cargo flight Moscow-Krasnoyarsk will be operated weekly on Saturdays by Boeing 747-200F. Planned departure time from Sheremetyevo is 04.30* a.m., arrival time is 12.30* p.m.

In order to deliver freights to final destinations AirBridge Cargo will offer to its clients motor tracking from

Krasnoyarsk trans Siberia and convenient connections to cargo flights by Il-96 to Far East region.

AirBridge Cargo aims to ensure individual approach to every client. With its technological leadership, staff expertise and focus on clients' demands and expectations AirBridge Cargo is a reliable partner that offers high quality scheduled cargo flights in Europe, Asia and Russia.
