Chinese airports acknowledge AirBridgeCargo's growth and commitment

AirBridgeCargo Airlines (ABC) has been honored by Chongqing Airport and Zhengzhou Xinzheng International Airport with contribution awards for its growth and development of cargo sector.

ABC, which has been operating in Asia since 2004, reached significant results in the region following the upward trend for the last 15 years. The Company added Zhengzhou and Chongqing to its international network in 2010 and 2016 respectfully, leveraging import and export flows of the region and accommodating trade flows in the most effective manner for the convenience of its customers.

‘We are greatly honored to see our efforts being acknowledged at this high level and would like to thank airport authorities for cooperation, support, and partnership. In 2018 we have achieved upsurge of our volumes to/from Zhengzhou and Chongqing at 8% and 15% respectfully. Staring from weekly flights ABC has gradually increased the number of its frequencies till seven in CGO and four in CKG thus guaranteeing service quality and offering its customer a variety of specialty products and services, be it temperature-sensitive, oversized and heavy, dangerous goods and others’ – highlighted Constance Wu, Director Scheduled Cargo Operations, APAC.

In 2019 and beyond ABC will further support its airport partners throughout its international network, upgrading the level of its services, bringing the best industry practice and shouldering its services with market expertise.
