

12.05.2020 | Airbridgecargo SUCCESSFULLY COMPLETES TRANSPORTATION OF SENSITIVE PHARMA CARGO WITH TIVE INC

AirBridgeCargo Airlines (ABC), one of the leading global carriers of sensitive cargo by air, has completed a flight carrying delicate pharmaceutical products by a leading Biotech producer from Switzerland to China.

As a global leader in international air cargo operations, AirBridgeCargo successfully transported 39 pallets of temperature-sensitive air freight destined for preventative contingencies against COVID-19. Using the airline approved Tive Solo 5G tracker on board, the delivery was consistently monitored in real-time to ensure secure cargo condition - in compliance with health and safety, and security protocol, for handlers, cargo, and aircraft. As the Healthcare industry meets the rising demand for precautions against the global pandemic, AirBridgeCargo will continue to ensure safe air freight transportation in a

world where the global community faces new norms.
